Board Meeting Workshop

Hansen Dam

Section 401 Water Quality Certification

««««««««««««««««

a Regional Board Meeting Agenda Item

Thursday, November 6, 2003

9am-5pm

««««««««««««««««

Metropolitan Water District Board Room

700 North Alameda Street

Los Angeles 90012

213.217.6000

A Clean Water Act Section 401 Water Quality Certification is required for any activity that may result in a dredge or fill discharge to waters of the United States. The Certification establishes conditions that are necessary to protect water quality standards.

During the Workshop portion of the Board Meeting, you will have the opportunity to informally talk with the Regional Board about the:

- Purpose and significance of a Section 401 Water Quality Certification;
- Information provided in the Section 401 Water Quality Certification application and Draft 401 Certification for Hansen Dam; and
- Proposed mitigation and remediation related to fill activities at Hansen Dam Lakes.

The proposed Section 401 Water Quality Certification will be available on the Regional Board's web site on November 1, 2003 at: <http://www.swrcb.ca.gov/~rwqcb4/html/meetings/401pn.pdf>

Additional information regarding the Section 401 Water Quality Certification process can be found at: <http://www.swrcb.ca.gov/~rwqcb4/html/meetings/401wqc.html>. The workshop will occur during a regularly scheduled Regional Board meeting. Presentations may be limited by the Regional Board Chairperson in order to accommodate all interested persons.

California Environmental Protection Agency

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption

For a list of simple ways to reduce demand and cut your energy costs, see the tips at: <http://www.swrcb.ca.gov/news/echallenge.html>

Recycled Paper

Our mission is to preserve and enhance the quality of California's water resources for the benefit of present and future generations.
